

Year 2 Computing Knowledge Organiser– Using the Internet

Prior Learning: online and offline, SMART rules, what a web browser is, email is a good form of communication, how to use a search engine to find a picture, personal information should be kept private from strangers online

Facts

1. What is a blog?

- A blog is a website of your own where you enter information ordered by date.
- It can also be called an online diary or online journal that is shared with others online.

My First Swimming Competition

December 27, 2015

This month I went for three swimming competitions. This is my first year of participating. I thought I would make 44 seconds in free style and 50 seconds in breast stroke. Oh! I forgot to tell you, my 3 competitors were in ascending order in terms of people who participated and length of race. In... [More](#)

Sonali: About Me

A screenshot of a blog post by Sonali. The post is titled 'About Me!' and is dated March 5, 2019. The content of the post includes: 'Hello! My name is Sonali. I live in Adelaide, Australia and I am in Year 6. In Summer I play tennis and do swimming and in Winter I play netball. I also play piano and saxophone. My other hobbies are writing stories and doing coding. I like writing stories because I think that everyone should use their imagination in their life. I also do coding because when you struggle with a part of coding you should keep trying and coding makes people learn to be persistent. Another thing about me is that I can never make up my mind about my favourite things. For example, my favourite food is either donuts or ice cream, my favourite drink is either milkshakes or bubble tea and my favourite colour is blue or pink. See what I mean! My favourite subject at school is definitely Science, but I like other subjects like Spelling, Drama and Maths (although it really depends on what we are working on). I also like doing other things got to do with STEM (Science, technology, engineering and maths) for example, coding (as I have mentioned earlier), I love working on Scratch, Code.org and Croak. I often have coding competitions with my friend Lauren who is also doing the blog challenge this year. One of the things I believe in that everyone gets to choose their own way in life and customize their own things and do what they want. This is why I made my quote on my blog "Make every dream possible". I hope to see you on my blog at future times and I will be sure to visit yours!'. The post has 11 comments and an 'Edit' button. On the right side of the screenshot, there are four callout boxes: 'External link to a map.', 'Text is proofread and broken up so it's easy to read.', 'Interesting insights shared without giving away personal details.', and 'External links to coding websites and a friend's blog.'. At the bottom right, there is a box that says 'Replies to the comments she receives.' and the Edublogs logo.
