Facts

1. What are the SMART rules?

S SAFE Keep safe by being careful not to give out personal information – such as your full name, email address, phone number, home address, photos or school name – to people you are chatting with online.

M MEETING Meeting someone you have only been in touch with online can be dangerous. Only do so with your parents' or carers' permission and even then only when they can be present.

A ACCEPTING Accepting emails, IM messages, or opening files, pictures or texts from people you don't know or trust can lead to problems – they may contain viruses or nasty messages!

R RELIABLE Information you find on the internet may not be true, or someone online may be lying about who they are.

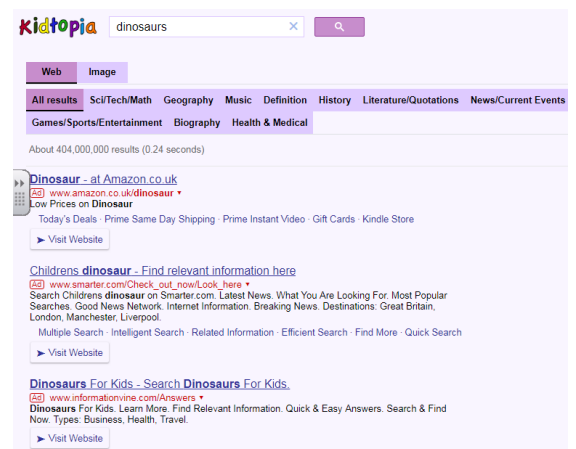

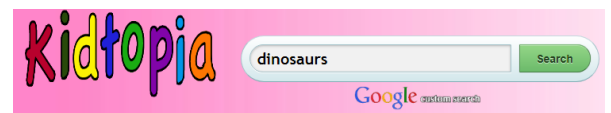

T TELL Tell your parent, carer or a trusted adult if someone or something makes you feel uncomfortable or worried, or if you or someone you know is being bullied online. You can report online abuse to the police at www.thinkuknow.co.uk

Vocabulary

1. website – a page or collection of pages that contain links to each other.
2. personal information – this identifies who you are, where you live, who you live with, where you go to school, age, date of birth etc.
3. safety – being protected from harm.
4. rules – an instruction of how something should be done
5. online – being connected to or available through a system like the internet on a computer.
6. offline – when a computer or other device is not turned on or connected to other devices , it is said to be 'offline'.

2. What is a web browser?

Web browsers are used by people to find and look at web sites on the internet. Search engines are special websites that have billions of pages and make it easy for you to find a website or page in an instant. Some popular search engines are Google, Yahoo! and Bing. Some child friendly search engines are Kiddle and Kidtopia.
